

Hibox Systems delivers turn-key IPTV Solution in Costa Rica

Coopeguanacaste R.L. has partnered with Finnish IPTV & OTT provider Hibox Systems to launch a new IPTV Service in Costa Rica. Coopeguanacaste is a cooperative that provides electric services in Costa Rica and have now expanded into a new Business segment, providing fiber connections together with an IPTV Service.

Coopeguanacaste wanted a flexible solution that allowed for rapid new development and customization. Hibox has managed the whole turn-key delivery of the IPTV solution, which included Arris & Appear TV Head-end equipment for receiving satellite signals, Verimatrix DRM, Edgeware Streamers, and Hibox's IPTV software platform and set-top boxes from Dune HD. The first phase of the project is now ready with a TV offering including 150 international TV channels.

"We wanted to use Hibox for their capability to deliver a turn-key IPTV solution including head end equipment, middleware software and set-top boxes. Hibox expertise helped us to successfully launch our IPTV solution in Costa Rica. The current implementation already provides new features that are being embraced by our customers and the platform enables many new additional services where we can extend our co-operation in the future. As a partner Hibox showed to be a real professional customer-oriented company" said Gerardo Gutiérrez, Telecommunication Manager at Coopeguanacaste.

"The success of this project shows our ability to deliver complex turn-key projects anywhere in the world. Our mature technology and proven expertise in IPTV technology enables operators to rapidly deploy new technology without compromising quality" said Staffan Granholm, CEO of Hibox Systems.

About Coopeguanacaste R.L.

COOPEGUANACASTE, R.L. is the cooperative that provides electric and commercial services to a vast region of the Guanacaste province in Costa Rica. We are a leading company in technological development, power generation based on clean and renewable sources of energy and solutions for the home and industry.
